Product information

ProSelect® Blends

365 Super Sport

- High-performance Poa pratensis for demanding sports turf

Description

365 Super Sport is a premium *Poa pratensis* blend combining Bluenote, Enigma and Legend. Selected for complementary performance characteristics, the blend delivers rapid establishment, strong wear tolerance, recovery and high turf quality for demanding sports surfaces.

365 Super Sport brings together Bluenote, Enigma and Legend in one blend, combining different performance strengths across key characteristics including turf quality, color, summer density, seedling vigor, disease tolerance, mowing quality and turf uniformity.

Benefits

- Rapid establishment - Fast germination and establishment help produce a dense, uniform sward quickly.
- Built for wear and recovery - Aggressive rhizomatous development helps create a stable surface with strong sod strength and rapid recovery following wear.
- Exceptional turf quality - Strong colour and turf quality help deliver an attractive playing surface for both live and televised sport.

- Disease tolerance - Good tolerance to Dollar spot and Stem rust helps maintain turf appearance and quality through the season.

- A-LIST® APPROVED - Independently recognised for maintaining high turf quality under demanding conditions, with reduced requirements for water, fertiliser and plant protection inputs

Characteristics

Contains	100% Poa pratensis

Application rates

- Average sowing rate 16g/m²
- Mowing height 12–25 mm

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
