Product information

Sportsmaster® Base

Autumn

All macronutrients your autumn turf needs

4	12	12	12.0	3.5
N	P_2O_5	K_2O	CaO	MgO

Description

Prepare your autumn turfgrass for any impending winter blues with Sportsmaster Base Autumn. Designed for autumn application, this high-potassium, low-nitrogen formula will help you manage plant stress in the run-up to the harsher conditions around the corner, helping you replace any nutrients lost through grass clippings. Thanks to its increased levels of calcium and magnesium, you can both strengthen and boost the color of your lush green swards in anticipation of the tricky months ahead.

Guaranteed analysis

Oxide

N	Total Nitrogen	**4%**
	Ammoniacal nitrogen ($N\text{-}NH_4$)	3.2%
	Ureaformaldehyde (N-MU)	0.8%

P_2O_5	Phosphorus Pentoxide	**12%**
	Water soluble (P_2O_5)	11.2%
K_2O	Potassium Oxide	**12%**
	Water Soluble (K_2O)	12%
CaO	Calcium Oxide	**12%**
	Water soluble (CaO)	10%
MgO	Magnesium Oxide	**3.5%**
	Water soluble (MgO)	3.5%

Benefits

- High potassium and low nitrogen for autumn application
- High calcium content for stronger plants
- High magnesium for improved color response

Application rates

Recommended Rate:

35-50 g/m²

Always trial on a small area before adjusting application rate or any other variables. As site conditions vary and application is outside ICL's control, responsibility for results rests with the user.

How to use

1. Apply to dry foliage, then irrigate after 1-2 days if it has not rained.
2. You can irrigate to improve aid dispersion and reduce any risk of mower pick-up when treating close-mown surfaces.
3. Do not apply in drought or frosty conditions.
4. To allow the granules to properly disperse, do not verti-cut and/or groom until 3 days have elapsed following application.
5. If you need more information, please contact your technical support.

Recommended period of use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
