Application rates

Recommended rate: 35.00-50.00 g/m²

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

1. Apply to dry foliage, then irrigate after 1-2 days if it has not rained.
2. You can irrigate to improve aid dispersion and reduce any risk of mower pick-up when treating close-mown surfaces.
3. Do not apply in drought or frosty conditions.
4. To allow the granules to properly disperse, do not verti-cut and/or groom until 3 days after application.
5. Properly seal partly used or damaged bags.
6. Store under dry conditions.
7. If you need more information, please contact your technical support.
