

Product Information

NOVA NPK[®]

30-10-10+TE

Nova NPK water soluble fertilizers are ideal for open field and greenhouse fertigation. Nova NPK fertilizers provide complete nutrition and are available in different formulas: with chloride for Cl-tolerant crops, field crops, orchards, and plantations, and without chloride for greenhouse and Cl-sensitive crops.

The ICL Nova NPK range of water-soluble fertilizers has been developed with three objectives:

1. The availability of all nutrients in the correct proportions
2. The convenience of solving water quality problems with one product
3. Environmental sustainability

Drip irrigation enhances water and nutrient use efficiency and significantly reduces nitrous oxide (N₂O) emissions compared to furrow and sprinkler irrigation systems.

Product advantages

- Dependable quality and results
- Smart designs: a complete range with the right analyses for every need
- Made with clean, low-impurity materials
- ICL's tight control of ingredients and manufacturing ensures consistent high-quality
- High N formula with micronutrients
- Chloride free
- Environmental sustainability

Specific usage

Nova NPK 30-10-10+TE is recommended for the vegetative growth stage.

Application rates

Crop	Dosage, kg/ha/week
Soft fruits	20-40
Vegetables	40-60
Leafy vegetables	30-50
Orchards/Vineyards	20-40

Contact ICL or your professional advisor for specific advice or recommendations.

Product characteristics

Maximum solubility: 36 kg/100 L water (25°C)
EC value: 0.65 mS/cm (at 1 g/L)
pH value: 4.2 (at 10 g/L)
Packaging: 25 kg bag (PE)
Item code: 6130101014/01

Guaranteed analysis

Total nitrogen (N)	30%
Ammonium nitrogen (N-NH ₄)	2.7%
Urea nitrogen (N-NH ₂)	27.3%
Phosphorus pentoxide (P ₂ O ₅)	10%
Potassium oxide (K ₂ O)	10%
Sulfur trioxide (SO ₃)	10.9%
Copper (Cu)*	0.0025%
Iron (Fe)*	0.04%
Manganese (Mn)*	0.02%
Zinc (Zn)*	0.01%
Molybdenum (Mo)	0.0025%

*Chelated by EDTA
