N | P₂O₅ | K₂O

Description

These compound mini granules are perfect to use in the active growing season from April to September. Spring & Summer has a classic combination of nitrogen, phosphorus, and potassium with a longevity of 6 weeks, to ensure good, healthy growth for a quality turf. The risk of your turf scorching is also significantly lower.

The granules are easy to apply evenly and break down quickly, making nutrients available fast so you'll see a response within days.

Application Rates

Recommended Rate:

35 – 50 g/m²

Always trial on a small area before adjusting application rate or any other variables. As site conditions vary and application is outside ICL's control, responsibility for results rests with the user.

How to use

- 1 Apply to dry foliage and irrigate after 1 – 2 days if there is no rainfall.
- 2 Irrigation helps with dispersion and lowers risk of mower pick-up on close cut surfaces.
- 3 Delay any vertical cutting and/or grooming until 3 days after application, to allow the granules to properly disperse.
- 4 If you need more information, please contact your technical support.
