Product information

Smart Start™

ProSelect® Blends

Stadium Plus

Durable seed blend for high-traffic sports turf

Description

ProSelect Stadium Plus is a grass seed blend developed for sports training grounds and lawns exposed to heavy traffic.

The perennial ryegrass component supports rapid establishment and wear tolerance, while Heatmaster hybrid bluegrass adds durability and helps produce a dense, resilient sward.

The seed is treated with Smart Start to support faster germination and establishment. Good disease tolerance and high-purity seed lots also support consistent turf quality and strong visual appearance.

Mixture content

30% Stellar 4GL Lolium perenne

30% Fastball RGL Lolium perenne

30% Slugger Lolium perenne

10% Heatmaster Hybrid Poa pratensis (Coated)

Benefits

- Smart Start treatment supports faster germination and establishment
- Developed for high-traffic sports turf and training grounds
- Perennial ryegrass and hybrid bluegrass combine wear tolerance with durability
- Dense growth supports a resilient playing surface
- Good disease tolerance supports turf quality and appearance

Application rates

Average sowing rate:	32,5 g/m²

How to use

Mowing height: 25-35 mm.
If you need more information, please contact your technical support.

Technologies

Smart Start is a seed coating technology that retains moisture and provides micronutrients around the seed, helping create better conditions for germination and early establishment.
