

POTASH

Standard Potash (MOP)

 The power of potassium – applied directly or mixed as a fertilizer

0		0		61	
N		P ₂ O ₅		K ₂ O	

Description

Standard Potash from ICL is a premium, high-quality concentrated potassium source suitable for direct application and for fertilizer production. It is the most concentrated and economical potassium source, making it the potassium fertilizer of choice in most situations.

ICL potash is from natural sources. Our Dead Sea production site uses a natural evaporation process resulting in potash with a significantly lower carbon footprint when compared to alternative products. ICL Standard Potash also complies with stringent EU organic regulations and has been

approved as an input for organic farming under European regulation EU 2018/848 by Ecocert, INTERECO, and FiBL.

Guaranteed analysis

Oxide

N	Total Nitrogen	0%
P ₂ O ₅	Phosphorus Pentoxide	0%
K ₂ O	Potassium Oxide	61%
	Water Soluble (K ₂ O)	61%

Benefits

- Great for direct application in fields, orchards, and plantations or bulk blending with other fertilizers
- Increases crop yield and quality, disease resistance, and drought tolerance
- Enhances fruit firmness, texture, flavor, size, and color and increases oil content of oil crops
- Approved as an input for organic farming under European regulation EU 2018/848

Application rates

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

- 1 Suitable for producing fertilizer.
- 2 Compatible with all modern mechanical spreaders, producing easy and uniform distribution in the field.
- 3 If you need more information, please contact your technical support.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
