Nutri Liquid® Nitrogen

N32

It's turbo time! Power your plants 32% nitrogen

32	0	0
N	P_2O_5	K_2O

Description

Nutri Liquid N32 is a liquid nitrogen solution designed to cater to different crop needs. The 32% nitrogen comes in nitric and ammonia form to turbocharge your plant growth. The product is ready to apply and is specifically and precisely adapted to the agronomic requirements of your crops and the area around it. For a yield you've be yearning for, use Nutri Liquid N32.

Guaranteed analysis

Oxide

N	Total Nitrogen	**32%**
	Nitrate nitrogen ($N\text{-}NO_3$)	8%
	Ammoniacal nitrogen ($N\text{-}NH_4$)	8%
	Urea nitrogen (N-Urea)	16%
P_2O_5	Phosphorus Pentoxide	**0%**
K_2O	Potassium Oxide	**0%**

Benefits

- A massive 32% nitrogen to boost plant growth
- Full nutrient availability
- Accurate, safe, and homogeneous dosing – no need to dissolve first

Application rates

Trail first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

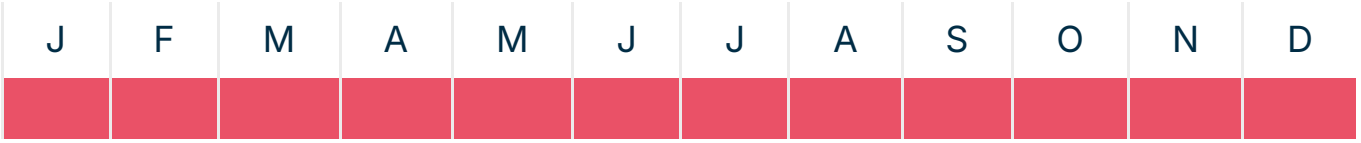

How to use

1. These formulations are designed for use in fertigation, particularly drip irrigation, and you can use them on all crops at any stage of their growth cycle.
2. Determine the dosage according to the specific characteristics of each crop and the conditions they are grown in, for example the type of soil

or substrate, the quality of irrigation water, and the phenological stage of the crop or cultivar.

3. For more information or recommendations, contact your nearest ICL distributor or representative for your area.
4. Store under dry conditions.
5. Properly seal partly used or damaged bags.

Recommended period of use

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
