

## Sportsmaster<sup>®</sup> WSF

### Iron

Water-soluble iron fertilizer for rapid, lasting turf color

17.5

Fe

## Description

Sportsmaster WSF Iron is a water-soluble iron fertilizer developed for large turf areas where a rapid color response is required.

With 17.5% iron, it dissolves readily in cold water and is particularly suited to use in lower soil temperatures. The turf response develops quickly and can last for several weeks, while the formulation is designed to minimize scorch risk.

Sportsmaster WSF Iron can be used year-round, either alone or with selected ICL products.

## Guaranteed analysis

### Oxide

|                               |                      |       |
|-------------------------------|----------------------|-------|
| N                             | Total Nitrogen       | 0%    |
| P <sub>2</sub> O <sub>5</sub> | Phosphorus Pentoxide | 0%    |
| K <sub>2</sub> O              | Potassium Oxide      | 0%    |
| Fe                            | Iron                 | 17.5% |
|                               | Water soluble (Fe)   | 17.5% |

## Benefits

- 17.5% iron supports a rapid turf color response
- Response can last for several weeks
- Dissolves readily in cold water for use in cooler conditions
- Low scorch risk supports flexible application
- Cost-effective option for larger turf areas such as fairways
- Compatible with selected ICL products

## Application rates

Recommended Rate:

10-20 kg/ha

Always trial on a small area before adjusting application rate or any other variables. As site conditions vary and application is outside ICL's control, responsibility for results rests with the user.

## How to use

- 1 Sportsmaster® WSF products are tank-mixable with other products within the range (see tank mix guide).
- 2 To ensure that this product dissolves completely, mix by adding the quantity required to a half-full spray tank, then agitating for 10 – 15 minutes. Then fill the tank to full capacity with water. The water temperature will affect the dissolution rate.
- 3 If spilled on pavement, concrete, clothes, etc. brush off immediately as it can stain. Contains iron: do not apply in case of risk of contact with concrete, marble, stone, fabric, or swimming pools.

## Recommended period of use

| J | F | M | A | M | J | J | A | S | O | N | D |
|---|---|---|---|---|---|---|---|---|---|---|---|
|   |   |   |   |   |   |   |   |   |   |   |   |

## Technologies

TMax is a nutrient uptake technology incorporated into selected water-soluble turf fertilizers to help maintain nutrient availability and support uptake through the foliage and roots.
