Description

In sport, you should prepare to face the unexpected. Treat your tees, fairways, and sports fields in the exact same way when it comes to stressful conditions with Sierrablen® 15-0-26+4MgO fertilizer. With its controlled-release nitrogen, you can ensure sustained growth over a 2-3 month period. Released under good growing conditions, the nitrogen will have your plants pumped for the challenges ahead, while its specially-formulated NPK and magnesium content promote good all-round health.

Application rates

Recommended Rate:	Average Recommended Rate:
30-40g/m²	37.5 g/m²

Always trial on a small area before adjusting application rate or any other variables. As site conditions vary and application is outside ICL's control, responsibility for results rests with the user.

How to use

1. Apply directly to dry foliage.
2. Following application, watering-in helps dispersion and boosts immediate effect. Do not apply during drought or frosty conditions.
3. You should apply following completion of aeration programs, including scarification, slitting and/or hollow tinning to prevent damage to the granules.
4. Properly seal partly used or damaged bags.
5. Store under dry conditions.
