Product information

Smart Start™

ProSelect® Blends

Regenerator Plus

Resilient seed blend for dense, well-rooted sports turf

Description

ProSelect Regenerator Plus is a grass seed mixture developed for sports turf, suitable for both new seeding and overseeding.

Fine-leaved perennial ryegrasses provide a dense, hard-wearing sward, while hybrid Kentucky bluegrass contributes rooting strength, recovery and resilience.

SmartStart coating supports faster germination and establishment of the Kentucky bluegrass component, helping it establish effectively alongside the perennial ryegrass from the start.

Mixture content

25% Groundforce Lolium perenne

25% Calico Lolium perenne

35% Coletta Lolium perenne

15% Heatmaster Hybrid Poa pratensis (Coated)

Benefits

- Hard-wearing mixture suited to sports turf
- Suitable for both new seeding and overseeding
- Dense, well-rooted sward supports surface durability
- Smart Start coating supports faster Kentucky bluegrass germination and establishment
- Good recovery and cold tolerance

Application rates

Average sowing rate:	30 g/m²

How to use

Mowing height: 20-30 mm.
If you need more information, please contact your technical support.

Technologies

Smart Start is a seed coating technology that retains moisture and provides micronutrients around the seed, helping create better conditions for germination and early establishment.
