Product information

LANDSCAPER PRO®

Supreme (SE)

Durable grass seed blend for multi-purpose turf in Southern Europe (SE)

Description

Landscaper Pro Supreme is a tall fescue and perennial ryegrass blend developed for multi-purpose turf in Southern Europe (SE), particularly where warm, dry conditions are a challenge.

Tall fescue contributes deep rooting and drought tolerance, helping established turf make effective use of available soil moisture. Perennial ryegrass supports faster establishment and adds durability for areas subject to regular use.

Together, they provide a durable turf suitable for a range of soil types and landscape applications.

Cultivars

- 80% Festuca arundinacea
- 20% Lolium perenne

Benefits

- Drought-tolerant grasses help turf cope with warm, dry conditions
- Durable blend suited to multi-purpose turf and regular use
- Rapid establishment helps create a usable surface sooner
- Deep rooting helps make effective use of available soil moisture
- Suitable for a range of soil types

Characteristics

Pack sizes	5kg, 10kg & 20kg
Recommended mowing height	25 - 50 mm.

Sowing Rate

35-50 g/m²

Always trial on a small area before adjusting application rate or any other variables. As site conditions vary and application is outside ICL's control, responsibility for results rests with the user.

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
