

BIOZ®

Onyx Permanent

It's time to prolong flowering and reap the rewards!

Description

Bioz® Onyx Permanent is a physiological action product with technology that provides increased floral setting and final fruit retention for perennial crops. Onyx Permanent has a triple mode of action: Mode of action 1: Bioregulation It stimulates the differentiation of dormant buds. Mode of action 2: Retention It increases the flower's lifespan and improves its nutrition. Mode of action 3: Nutrition Nutrition is responsible for improved flower formation and fruit setting.

*Bioz® is a registered trademark of ICL Europe Cooperative UA

Benefits

- Bioregulation
- Improved flower retention
- Nutrition providing greater fixation and formation of fruit
