

Leatherjacket Total Approach Pack

Combat turf pests with ease using the Leatherjacket Total Approach Pack – your all-in-one solution for turf management.

Description

The Leatherjacket Total Approach Pack provides turf managers with a comprehensive one-box solution to tackle the damaging pest on turf surfaces.

The fully integrated approach will optimise the potential of chemical, biocontrol and cultural measures. The pack includes Acelepryn insecticide and Syngenta NemaTrident beneficial nematodes, along with NemaSpreader designed to enhance nematode efficacy.

The one-hectare pack also includes a set of Syngenta XC Soil Nozzles to optimise all applications of Acelepryn and NemaTrident.

Whats in the box?

The Leatherjacket Total Approach Pack arrives in two separate boxes. This will treat an area of one hectare:

BOX 1 (A) CONTAINS:

- Acelepryn® – 0.6 litre
- NemaSpreader – 5 litres
- Syngenta XC 08 Soil Nozzles set (white)
- Acelepryn 7-point plan
- FREE soil thermometer (first 150 orders in 2025)

BOX 2 (B) CONTAINS:

- 5 x bags of NemaTrident F (500 million per bag)Total: 2.5 billion nematodes (place nematodes into fridge at 4-7°C on arrival)

How to use

1. Refrigerate NemaTrident F bags at 4-7°C as soon as they arrive. Leave air space between bags if possible – baskets or racks will help.
2. Check weather conditions to plan applications as soon as possible following delivery of both boxes.
3. Fit the XC 08 Soil Nozzles to your sprayer in preparation.
4. Apply Acelepryn as described in attached the '7-point plan' for optimum results.
5. Within 7 days following your Acelepryn application, apply NemaTrident & NemaSpreader as per the 'NemaTrident F Instructions for use'.
6. Irrigate surfaces immediately post NemaTrident application, to help move nematodes into the soil.
7. Keep soil moisture raised for the following few weeks to aid nematode movement and keep pests high in the soil profile.
