

ProSelect[®]

Fescue Greens

High-density, disease-resistant combination of Slender and Chewings fescue.

Description

ProSelect Fescue Greens is a combination of Slender and Chewings fescue selected for their high shoot density, tolerance to close mowing and excellent disease tolerance.

For courses with a lower input system of minimum sustainable nutritional levels and little or no fungicide, this seed blend is an excellent choice. Using only highly ranked STRI-listed varieties, this blend is ideal for those wishing to produce turf sustainably.

Cultivars 2026

- 50% Seamist – Slender creeping red fescue
