

AGROMASTER®

Agromaster® 10-14-21

 Steady release for even growth

Description

Agromaster®10-14-21+1MgO+8SO₃+11Ca | 1-2M is formulated with an NPK ratio of 2-1-1, plus of magnesium, sulphur and calcium, so your crops will enjoy consistent, uniform growth and better photosynthesis. ICL's combined E-Max and Resin Release Technologies ensure nutrients are available when they're needed, over 1 – 2 months, whatever the weather conditions and particularly in spring when fertilising is often difficult. This formula is especially suitable and proven for potatoes and vegetables. Agromaster® releases nutrients more efficiently than conventional fertilisers so more gets to your plants: any nutrient loss is minimised so your yields will be more fruitful.

Benefits

-  Controlled release NPK for months of uniform growth, plus magnesium, sulphur and calcium
-  Increase yields, or use less and maintain usual yield
-  Reduce environmental impacts by minimising nutrient losses, especially in light soils
-  Higher Nitrogen Use Efficiency verses other N fertilisers
-  Reduce costs, through less fertiliser applications and a reduction in farm traffic and soil compaction

Produce better quality crops – greater uniformity and colour leading to a more marketable product

Application rates

	Rates
Crops	
Medium-long crop cycle vegetables grown in protected areas	400-800 kg/ha
Fruits and vegetables grown in open field	400-800 kg/ha

Trial first on a small scale before changing the rate, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

How to use

- 1 Apply in spots, beds, or row application.
- 2 Incorporate Agromaster® in the soil between 5-10cm depth.
- 3 Where applicable, place the product under drippers.
- 4 Irrigating after application improves product and plant performance.
- 5 If you're using WSFs in the second part of the crop cycle, reduce the dosage of Agromaster® accordingly.
- 6 Store under dry conditions.
- 7 Properly seal partly used or damaged bags.
- 8 If you need more information, please contact your technical support.

Attention

Please contact your ICL Technical Area Sales Manager for more detailed advice.
