

Product Information

NOVA FLOW™

5-10-20 + 9 Mg

Nova FLOW™ is a highly soluble alternative to magnesium nitrate with N-P-K, plus magnesium, sulfur, and boron. Designed for foliar applications, this high-quality source of Mg is ideal for late-season reproductive stage applications, when tissue magnesium is needed most. With high amounts of K, Mg, and S, Nova FLOW supports reproductive growth, sugar movement, and grain and fruit fill. Plus, it provides balanced nutrition for optimal uptake.

Manufactured with high-purity, superior quality, and fully soluble nutrients, it reduces the risk of clogging nozzles and can be safely mixed directly in the tank.

Directions for use

Use as a late-season application to promote the movement of sugars and grain fill.

Foliar: 2 to 5 lbs per acre depending on crop, and applied in at least 10 GPA of water.

Solubility: 2.5 lb/gallon

Package size: 25 kg (55.11 lb) bag

Benefits

- Provides balanced nutrients plus Mg
- Ideal for late and reproductive stages of growth
- Promotes sugar movement, grain, and fruit fill
- Highly pure, superior quality formulation
- Fully water-soluble alternative to magnesium nitrate

Nutrients

N	P ₂ O ₅	K ₂ O	+
5%	10%	20%	9% Mg

Recommended dilution

2.5 lb/gallon solubility

Try first on a small scale before changing the rate, or any other variables. For more specific recommendations please contact ICL or your local distributor.

Guaranteed analysis

NITROGEN	5%
PHOSPHORUS	10%
POTASSIUM	20%
MAGNESIUM	9%
SULFUR	11.7%
BORON	0.5%
