

Agromaster® Start Mini

10-43-0

Healthy roots from the Start

10	43	0
N	P ₂ O ₅	K ₂ O

Description

Set your young seeded and open field vegetable crops on the right path and keep them there with Agromaster® Start Mini 10-43-0 | 1-2M fertilizer. These mini granules, rich in phosphorus and nitrogen, help promote root development and establish crops in soils containing low amounts of phosphorus, whether the pH is high or low. Thanks to the 74% coated N and P and ICL's patented Resin Release Technology, your young plants will receive a steady and safe nutrient release during their crucial first stages of vegetation.

Analyse garantie

Oxyde

N	Azote total (N)	10%
	Azote ammoniacal (NH ₄ -N)	10%
P ₂ O ₅	Pentoxyde de Phosphore	43%
	Soluble dans l'eau (P ₂ O ₅)	38.7%
K ₂ O	Oxyde de Potasse	0%

Avantages

 Ultra-localized nutrition with close-to-seed application

 Time saving solution that limits soil compaction

 Controlled nutrient release for steady growth

Doses d'applications

Crops

Rate

Seeded crops, winter/spring arable crops, or open field vegetables

Poor soils, in addition to regular base fertilizers

25-30 kg/ha

Rich soils, replacing regular base fertilizers

50-80 kg/ha

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results.

Recommandations d'utilisation

1 Apply on soil with low phosphorus availability that have either a low or a high pH.

2 Close to the seeds to enhance rooting.

3 Speed up plant establishment.

4 Improve phosphorus availability and young root uptake.

5 Store under dry conditions.

6 Properly seal partly used or damaged bags.

7 If you need more information, please contact your technical support.

Attention

Il est recommandé, avant toute utilisation d'un nouveau dosage, d'un nouveau produit ou d'une nouvelle méthode d'application, d'effectuer un essai à petite échelle. Ne pouvant pas contrôler les conditions et les méthodes d'utilisation du produit, ICL décline toute responsabilité en cas de résultats négatifs. Pour des recommandations spécifiques, veuillez consulter votre technicien ICL.
