

VITALNOVA®

Stressbuster

Instant response with flexible application rate

9 | 0 | 0 | TE

N P K

Description

This state-of-the-art liquid is a must in your turf management program: it conditions turf before stress but it also helps it recover from stress. Ideal for any lawn, sports field, fairway, or fine turf area. It is chock full of nutrients, wetting agents and biostimulants to help your turf survive any trauma: nitrogen for color, density, and growth; iron for a quick color boost; amino acids to aid foliar uptake during stressful conditions; carbohydrates for improved soil biology, plus a surfactant for better uptake. You'll notice a difference in no time. Stressbuster is a great tank mix partner and is ideal to use all year round.

Guaranteed analysis

Elemental

N	Total Nitrogen	**9%**
	Urea nitrogen (N-Urea)	9%
P	Phosphorus	**0%**
K	Potassium	**0%**
	Water soluble (K)	0.7%
Cu	Copper	**0.02%**
	Copper EDTA (Cu)	0.02%

Fe	Iron	**2.400%**
	Water soluble (Fe)	2.400%
Mn	Manganese	**0.035%**
Zn	Zinc	**0.04%**

Benefits

- Advanced pre-stress conditioner before extreme weather conditions and wear
- Aids swift recovery after stress from cold, heat, drought and wear
- Visible color improvement, turf response in as little as 24hrs
- Amino acid for foliar update in times of stress

Characteristics

Formulation type	Liquid
Pack size	10 litre, 200 litre and 1,000 litre
Pack coverage:	2,000–4,000m2 (10 litre pack)
Longevity	4 weeks *depending on environmental factors
Typical turf response	< 24 hours *depending on environmental factors

Application rates

Application rate:	25 – 50 L/ha
Water volume	400–600 L/ha
Frequency	Monthly

Attention

Trial first on a small scale before changing the rate, application, or any other variables. As circumstances can differ and as the application of our products is beyond our control, ICL cannot be held responsible for any adverse results. Contact your ICL advisor for more detailed advice.
