

ProSelect®
Speed Germ

Perennial ryegrass mix for extended seasonal use

Product Info

Why choose Speed Germ

Safety Data Sheet

Find a distributor

Description

ProSelect Speed Germ is a 100% perennial ryegrass renovation blend. Designed for early and late season use when ground temperatures are lower than optimal. Speed Germ helps maintain grass cover as part of an ongoing overseeding programme. Speed Germ uses diploid perennial ryegrasses which consistently deliver superior turf quality characteristics compared with tetraploids and annual ryegrasses for wear and shoot density.

Cultivars 2026

- 50% Agreement – Perennial ryegrass
- 25% Greenplanet – Perennial ryegrass
- 25% Vermillion – Perennial ryegrass

*varieties subject to availability

Benefits

- Extended seasonal over-seeding
- Lower temperature germination
- Excellent disease resistance
- 35% higher seed numbers than Tetraploid blends

Characteristics

Pack size	10kg

Application rates

Average sowing rate	35 g/m²
Mowing height	25 - 35mm
