

# Levington® Advance Blocking FT

## Peat-reduced blocking media engineered for future-focused growers

### What is the product?

Levington Advance Blocking FT is ICL's next-generation peat-reduced blocking media, formulated with FSC® - certified wood fibre (**Fibagro Advance**) to meet rising sustainability demands. Locally sourced and produced at our Scotland facility, this substrate supports the transition to lower peat usage while maintaining reliable performance.

### How does the product benefit your production?

- Milled peat-reduced standard blend ensures consistency across growers
- Milled peat is lighter than wet-dug peat – easier transport, fewer deliveries, and improved water control
- Excellent block formation that holds until roots fully establish
- Ideal for brassicas and field crops in blocking trays
- Incorporates H2Gro for even water distribution and improved plant hydration
- Compatible with existing setups – no major investment needed
- Backed by expert technical support, grower training, and feeding programmes

Supports peat-reduction targets

### How do you use it?

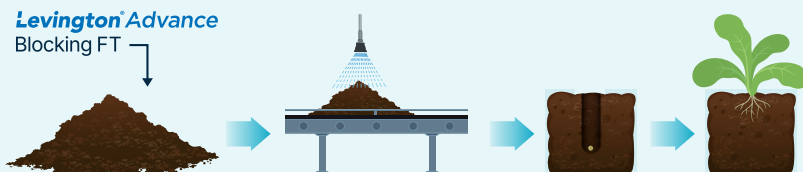

- Delivered ready mixed – Just add your water to your specific requirements to activate the product to form into blocks
- Start feeding programs as required as nutrient levels begin to taper
- Apply irrigation regularly to manage moisture
- Use on-site within 7 days of delivery to maintain quality

Available in bulk, probale, 3m<sup>3</sup> & 2m<sup>3</sup> bulk bags and 75L bags

The mark of responsible forestry  
Certificate Number:  
SGSCH-COC-020103

Levington® Advance  
Blocking FT

### What are the results?

- Field tested across spring and summer conditions
- Tried by the UK's leading growers
- All raw materials fully reviewed and passed for UK use
- Proven benefits of H2Gro
- Standard mix developed to manage cost-efficiency and risk ownership for growers

Approved by  
Hillgate Nurseries Limited

### Why should you buy it now?

Secure your supply of Levington Advance Blocking FT for the upcoming season. A proven, reliable solution to meet environmental standards without compromising quality.
