Description

A granular fertiliser to get your growing season off to a great start. Sierraform GT Spring Start has iron and manganese to boost photosynthesis and colour, and low levels of MU to help your turf start getting greener even in cooler conditions. The product also contains slow-release potassium, as well as standard-release nitrogen and potassium. Phosphate-free, so it helps you manage phosphorus build-up. Spring Start comes as homogeneous micro-granules, featuring our patented MU2 and SiLK coating technologies.
