

High purity | Fertigation | Foliar Feed | pH Control

NOVA®

Nova PeaK®

The most concentrated straight fertiliser with phosphorus

0	22.7	28.2
N	P	K

Description

Nova PeaK MKP 0-52-34 is an extremely pure monopotassium phosphate. Made using ICL's exclusive proprietary technology to ensure maximum quality. This is a high purity product, totally soluble in water and fast dissolving. It is the most concentrated straight fertiliser containing phosphorous. With its low salt index, Nova PeaK is recommended for use in any type of crop and fertigation system: drip irrigation, hydrophonics, sprinkles, pivots, or foliar spray.

Guaranteed analysis

Elemental

N	Total Nitrogen	**0%**
P	Phosphorus	**22.7%**
	Water soluble (P)	22.7%
K	Potassium	**28.2%**
	Water soluble (K)	28.2%

Benefits

- High purity
- Concentrated phosphorus straight fertiliser
- Safe for fertigation systems

Application rates

Recommended dilution rate for stock solutions: 10-15 kg / 100 l water

Trial first on a small scale before changing the rate, or any other variables, As circumstances can differ and the application of our products is beyond our control, ICL cannot be held responsible for any adverse results

How to use

1. Nova PeaK® is one of the most widely used straight fertilizers in tailor-made crop recommendations.
2. Its high phosphorus and potassium content makes it very flexible for use in hydroponics, easily meeting your plants' needs for these nutrients.
