

Product Information

BIOZ[®] ACTISPARK

Nutrient Utilization Enhancer

ICL's BIOZ[®] range of biostimulants, biologicals, and enhanced nutrient fertilizers represent our commitment to innovative solutions that maximize crop yields sustainably. BIOZ products are designed to optimize productivity and unlock the full potential of your crops.

BIOZ[®] ActiSpark (0-0-0.5) enhances soil biology by fostering a productive microbial community, leading to improved nutrient uptake and more effective fertilizer use. BIOZ ActiSpark contains a multi-strain microbial blend, proven across various soils and growing conditions, leading to increased crop yields.

Proven Performance

In trials, BIOZ ActiSpark consistently increased yield relative to starter fertilizer alone.

Corn

56 Trials

↑ **4.4 bu/A**
Plus, increased
kernel size

Strawberry

2017 California

↑ **8 %**
Increase in market-
able fruit

Potato

3 Trials

↑ **6 cwt/A**
Increase in yield

Application Rates

Apply BIOZ ActiSpark at a minimum rate of 0.8 liters per acre (2 L/Ha). Multiple applications may be needed for uses like fertigation. Refer to product label for full application and mixing instructions.

How to use

BIOZ ActiSpark is designed for soil application and may be applied as frequently as needed during the growing season. It can be applied to all soil types and pH ranges.

It is advised to conduct a compatibility test first, before applying this product in mixed formulations. If mixing with liquid fertilizers, it is recommended to mix in the following order: (1) water (2) fertilizer or chemicals (3) BIOZ ActiSpark.
