

“  
FOR VIGOROUS  
VEGETATIVE  
GROWTH  
”

# TechLeaf

31-11-11

## KEY FEATURES:

- Techleaf yields successful crop results with high purity and nutrient content.
- M-77 technology and DPI complex ensure efficient micronutrient uptake and availability.
- Techleaf provides diverse macro and micro-nutrient products.
- Targets growth stages, corrects nutrient imbalances and deficiencies.
- Techleaf products dissolve quickly and completely due to high-quality raw materials, making application easy.

## KEY BENEFITS:

- Promotes quick vegetative growth and leaf development.
- Improved plant resilience against environmental stress or like drought and pests.
- Improved flowering, fruit setting, and overall crop yield.
- Promoting vigorous vegetative growth in plants.

**METHOD OF APPLICATION:**  
Suitable For foliar application.
